

Chapters in *The Medical and Surgical Practice of* NAPROTECHNOLOGY for fertility Medical Consultant Certification Examination

- Not tested** = For the purposes of the certification exam, candidate may ignore or not read this chapter.
- Background** = For the purposes of the certification exam, candidate should be broadly familiar with the contents of this chapter. Questions will not focus on the contents of the chapter, but will assume familiarity with the basic concepts in this chapter. There may be some questions on the *CRMS* but this will not be the overall focus of the examination. A working understanding of the *CRMS* will, however, be assumed in some of the questions.
- Focus** = Questions in the certification exam will be focused particularly on material in these chapters.
