Creighton Model FertilityCare Practitioner Program

The Creighton Model FertilityCare Practitioner Education Program is designed to prepare couples or individuals to deliver Creighton Model FertilityCare Services of the highest quality and to provide a vehicle for certification by the American Academy of FertilityCare Professionals.

The Gianna FertilityCare Practitioner Education Program is accredited by the American Academy of FertilityCare Professionals. The program is a 13-month course of study incorporating classroom instruction and supervised teaching experience.

There are two educational phases, two supervised practicums and an on-site visit providing education in both the basic as well as advance aspects of the Creighton Model FertilityCare™ System. Only the education phases are provided on campus all the other educational services are provided through an innovated program of long distance supervision and on-site visitation.

*Join the mission of
providing authentic
women's health care!*

Our
